Cadaveric Procedural Skills Course 2019

Date:
22 June 2019; (Advanced USG Procedural Skills Workshop)
23 June 2019; (Advanced Emergency Procedures Workshop)

Course Description:
The course is intended to offer education and retraining on critical invasive procedures on human cadavers, under the guidance of an international and local group of experienced instructors in the controlled environment of the anatomy lab. Although these procedures are important and life-saving, many physicians may perform them infrequently because of the rare indications or invasive nature of procedures.

Participants will have ample opportunity to discuss and learn the indications, technique and clinical pearls to perform the procedures competently.

Application deadline: 24 May 2019

Procedure:
Advanced airway management
Arthrocentesis
Central vascular access
Chest tube insertion
Emergency intubation
Intravenous access
Lateral canthotomy
Nerve block
Pericardiocentesis
and more...

Venue:
School of Biomedical Sciences,
The University of Hong Kong, 1/F,
Laboratory Block, 21 Sassoon Road,
Pokfulam, Hong Kong

Course fee:
HK\$4500 per day

Student-to-cadaver ratio:
6:1

Class size:
42 students per day

Target participants:
Physicians who are involved in emergency invasive procedures in the daily practice (HKCEM trainees and fellows will be given priority).

CME:
6 non-passive Cat 13 (IP) per day

TP:
5 (Cat A) per day (Max 10)
