The Sports Medicine Subcommittee -
Scientific talk on 28th April 2021
疫情下的運動科學是與非

Staying physically active is the key to strengthen your health and is an important strategy for healthy living during the COVID pandemic. In order to comply with the government's measure on social distancing, various sports are restricted and we have to adapt to a new "mode" of performing sports.

It is our honor to invite Dr. Louie Hung Tak Lobo (劉錫達博士), the Associate professor and Associate director of Dr. Stephen Hui Research Centre for Physical Recreation and Wellness in the department of Sports, Physical Education and Health of the Hong Kong Baptist University to speak on the topic: Fact and Fiction on performing sports in the pandemic. 疫情下的運動科學是與非。

Please join us on 28th April 2021 18:00-19:00 via Zoom and know more about exercising in pandemics from Dr. Lobo! Let's keep on moving and keep exercising!
