

## Congratulations to Dr HO Hiu-fai, the awardee of Hospital Authority Outstanding Staff Award 2022

### Role model of Emergency Physician

Dr Ho Hiu-fai joined Queen Elizabeth Hospital Accident and Emergency Department in 1994 and was appointed as Consultant in 1996. He has led our department for more than 25 years, with 18 years in the capacity of Chief-of-Service.

Dr Ho is an inspirational leader. He is diligent, enthusiastic and responsible. Although he is busy with department and hospital management duties, he has never stopped working with front-line doctors and providing weekly clinical duties, including overnight shifts. Dr Ho is always able to marshal the strengths of the A&E Team, to motivate and empower them to deliver the best care to all A&E patients.

Being one of the pioneers of Emergency Medicine, Dr Ho is innovative in providing and promoting different ways for better emergency care to patients. Our department is the first A&E service in Hong Kong to introduce an Emergency Medicine Ward, End-of-life Care and Rapid Assessment and Treatment (RAT) clinical workflow. These patient care models are well recognized in improving the quality of patient care and department efficiency. Some of them have been widely adopted in other A&Es.

Dr Ho also has innumerable remarkable achievements in Queen Elizabeth Hospital. He was the Deputy Hospital Chief Executive from 2013 to 2019. He took the leading role in many important hospital projects, including Command Center, QEH Smart Hospital and New Acute Hospital Development. In the 5th wave of the COVID-19 pandemic, he volunteered to cancel his pre-retirement leave and worked on the front line to combat the disease and save lives. Dr Ho's superior virtues and unselfishness of Dr Ho did mean a lot to fellow colleagues at A&E, which had helped us to overcome such a difficult time both physically and psychologically. He also undertook the historical mission of converting QEH into a designated COVID-19 hospital. It was a challenging task that could not be accomplished without Dr Ho's intelligence and charisma. Undoubtedly, Dr Ho has saved our department and exhausting staff at the same time.

Trauma service is one of Dr Ho's main focuses. He is devoted to the development of trauma service and is one of the distinguished leaders in this subspecialty. He helped introducing the trauma system to Hong Kong in 1994 and contributed a lot to service improvement and trauma educational activities. He introduced a 3-in-1 management protocol for Exsanguinating Pelvic Fracture and REBOA that had saved many trauma patients. He is the only person who provides 24/7 standby support for the A&E team to call for help in managing major trauma cases over the past ten years.

Dr. Ho deserves to be honored as the Hospital Authority Outstanding staff. I would like to take this opportunity to express my heartfelt congratulations and gratitude for all his unwavering efforts and invaluable dedication to QEH A&E.

Thank you and congratulations to you, Dr Ho!

By  
CW CHAU  
QEH A&E

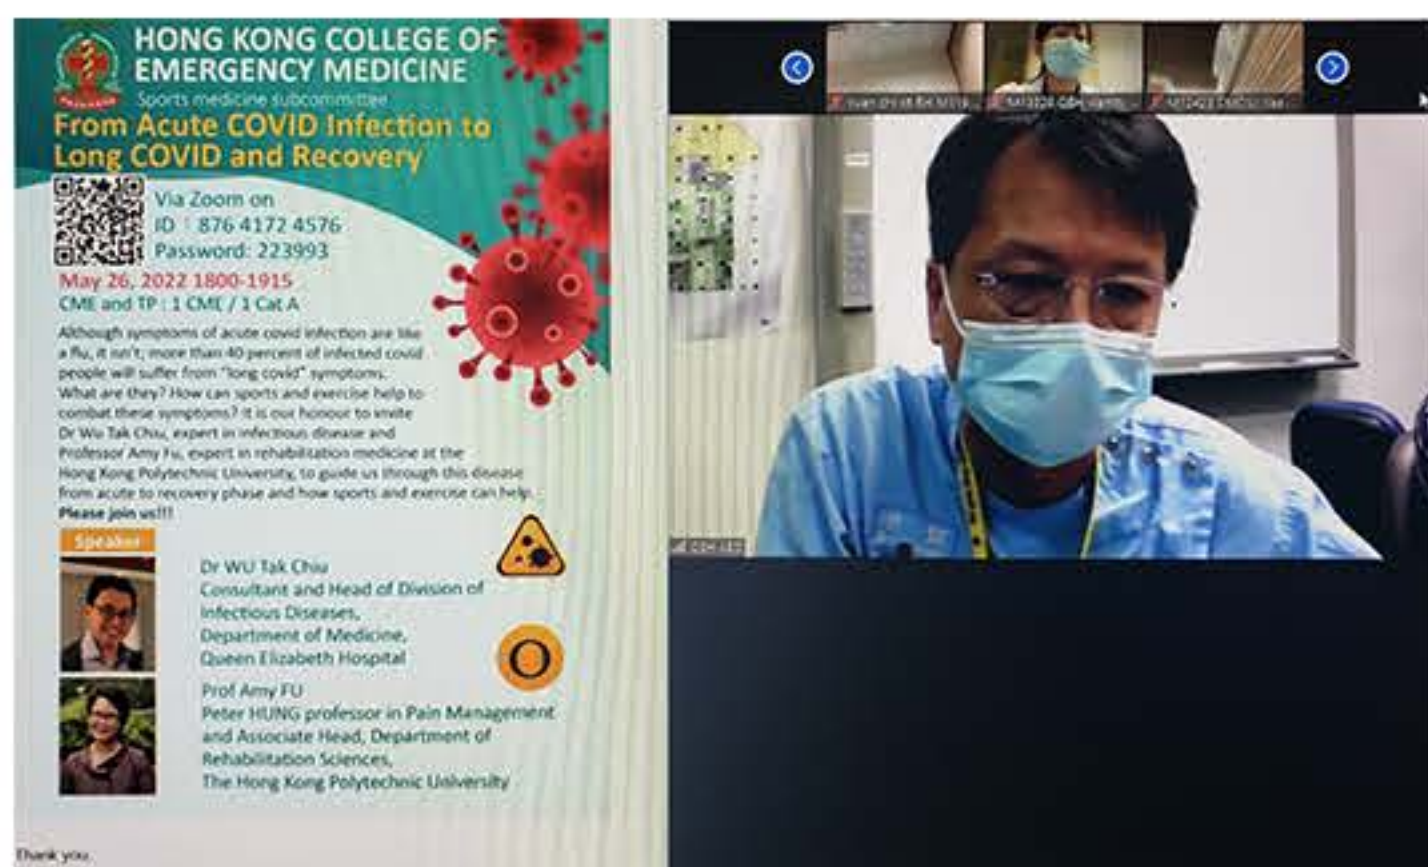

### College Activities:

### Symposium by HKCEM Sports Subcommittee

### “From Acute COVID Infection to Long COVID and Recovery”

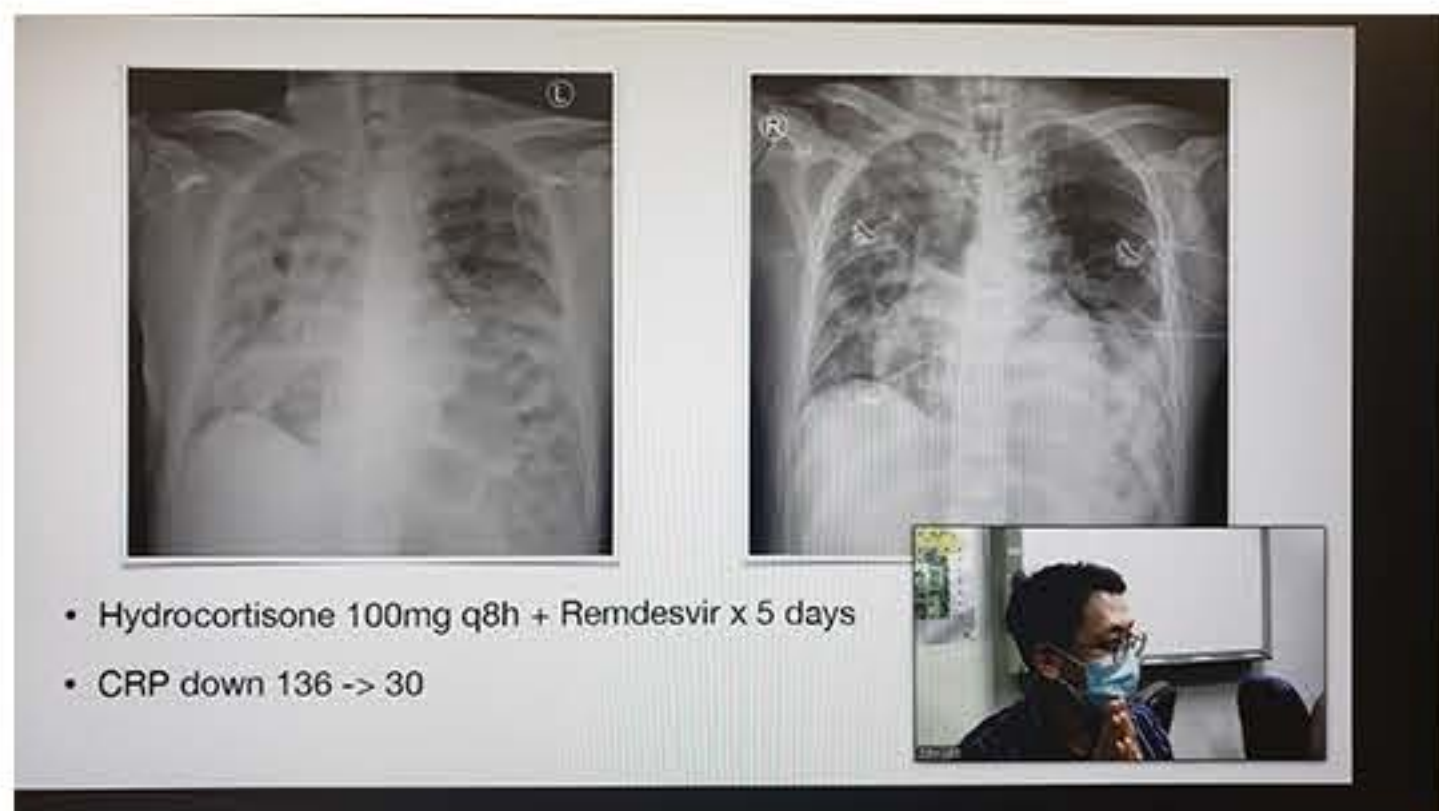

### on 26 May 2022

Dr Kenneth WU, Advisor of Sports Medicine Subcommittee
