In this era of pursuing efficient communication, the combination of mobile phone photography and social media has gradually become popular, even mainstream. This workshop aims to highlight the key points of mobile phone photography for social media (primarily Instagram) through theory and practical exercises based on traditional camera photography concepts.

**Indoor:** The key points of mobile phone photography include common photography types (lifestyle + portrait), commonly used composition, special composition, emerging techniques, portrait posing, and efficient colour styles.

**Outdoor:** Operational exercises for finding compositions in daily environments. It also covers things to pay attention to during actual shooting and changes in trend concepts.

#### Instructor Introduction:

**Martin** 社區攝影師/人像攝影師/直立板實習教練/佗寂舍副會長

#### Extending the Healing Ministry of Christ
