Asian Society for Emergency Medicine (ASEM) Conference 2025

ASEM was held in Dubai, UAE back in December, 2025. Many EM physicians attended and had a fruitful time learning about EM updates and development, catching up with old friends while making new connections. They also managed some sight seeing at this exciting city.

Asian Society for Emergency Medicine (ASEM) Conference 2025

We are proud to celebrate two outstanding achievements from Hong Kong's emergency medicine community at the ASEM 2025.

Dr. CHUNG Chin Hung

has been conferred the Honorary Fellowship of ASEM in recognition of his lifelong contributions to advancing emergency and prehospital care. As a visionary leader, Dr. Chung has transformed the landscape of emergency medicine in Hong Kong through innovation, education, and public engagement – from establishing the city's first A&E Training Centre to launching AED programs and large-scale CPR education that set world records.

His tireless dedication has inspired generations of clinicians and strengthened community resilience across the region.

Professor Timothy Rainer

is the winner of the ASEM 2025 Best Poster Presentation Award, earning this distinction for his high-impact research and scholarly contribution to emergency medicine. His work continues to bridge science and clinical practice, enriching the field with evidence-based insight and mentorship.
